Disability Affairs
John White, LDE Superintendent
Naomi Whitney, Terrebonne Parish
Kay Rone Wilson, LDE
Sandee Winchell, LaDDC Exec. Director

Representative Schroder called the meeting to order with a quorum at 1:07 p.m.

Motion passed: Motion to accept the summary from the October 1st meeting made by April Dunn, second by Rebeca Hanberry, passed without objection.

The Committee received information from Superintendent White regarding Louisiana Department of Education (LDOE) actions and plans related to the Committee recommendations of October 1st meeting.

The Committee did not formulate formal recommendations; however, various members and guests committed to taking the following action steps:

- Superintendent White indicated the LDOE will provide the Act 833 Steering Committee with a list of applied and/or foundational courses used by the Department before the December 10th meeting. A workgroup reviewing and developing courses related to JumpStart that could apply to students with disabilities is expected to result in a formal proposal in the next few weeks.
 - A request was made for the number of students with and without disabilities enrolled in applied or foundational level high school courses.
- It was agreed that the Act 833 Committee will review the Career Diploma courses to determine any flexibility for adjusting content and/or determine whether it will be recommended to expand the number of courses applicable for Carnegie Credit. This review will be on the major item on the December 10th Committee Agenda.
- It is expected that LDOE will have a proposal about LAA-1 eligibility prior to the December 10th Act 833 meeting.
- Rep. Schroder advised LDOE that the IEP reform and/or training is needed. Representative Schroder recommended LDOE compare how IEPs are developed and implemented in Louisiana relative to other states.
- Multiple members expressed the need for urgency in providing guidance to schools and teachers for students seeking to graduate in May 2015. LDOE shared plans for the series of webinars specific to Act 833 implementation and longer range plan for increasing training and technical assistance with IEP development. Specific suggestions for training and technical assistance documents included: producing a brochure geared toward parents and students, provide case study examples, provide in-person training, and offer training sessions tailored for different target audiences.
- Superintendent White requested all questions and/or requests for guidance related to Act 833 implementation to be sent directly to him.

Meeting adjourned at 3:55 p.m.
