

Person Centered Supported Living

Quarterly Report

Project Period: October 1, 2013- December 31, 2013

Community and Family Support (CFS)

Act 378, of the 1989 legislative session, created the Community and Family Support System (CFS). Act 378 specifies that services for individuals with disabilities “should be responsive to the needs of the individual and his family, rather than fitting the person into existing programs.” The Act further states that it is “more cost effective to provide services to adults and children with disabilities living in their own home or with their families rather than in out-of-home placements.”

One of the primary principles on which the CFS program was founded is that adults with disabilities should be afforded the opportunity to make decisions for themselves and to live in typical homes and communities where they can exercise their full rights and responsibilities as citizens. Based on this principal, the CFS program for the FY 2013-2014 is administered as follows:

Demographics of Consumers
