Louisiana Citizens for Action Now

Information Alert - House Supports the Exemption of Self-Direction from Med Administration Requirements and the Use of People First Language

Thanks to all who participated in our latest action alerts!

The whole House has approved HB 185 by Rep. Kenny Havard that would exempt direct support professionals (DSP) working for waiver recipients in self-direction from the rigorous training currently required of all DSPs to administer any medication and perform non-complex medical tasks.

The House also approved HB 63 by Rep. Walt Leger that would revise language in Louisiana's laws, policies and publications that describe people with disabilities to reflect People First Language.

Both bills will now move to the Senate Health and Welfare Committee for their consideration and vote.
