

Action Alert #20 Contact Your Representative to Support Funding for DD Services

June 5, 2017

The full Senate passed the budget, House Bill 1 (<u>HB1</u>), over the weekend. It must now go back to the House where they will decide to concur (agree) or not concur with the changes the Senate made.

The Senate version of the budget includes funding for the following services/programs:

- \$1.6 million in state general funds (SGF) to fill 627 vacant, existing waiver slots for people with developmental disabilities
- "LINCCA" funding which many Human Services Districts/Authorities use to fund the Individual and Family Support and Flexible Family Fund programs, Families Helping Families contracts, and other programs for people with behavioral health needs.
- State Personal Assistance Services (SPAS) program which provides services to individuals with physical disabilities needed to keep them at home and at work and out of nursing homes.
- Over \$5.4 million restored to mental health rehabilitation services

The Senate version is the best case scenario for people with disabilities and other vulnerable populations. The original House version of the budget included over \$235 million in cuts of state funds to the LA Department of Health. The Senate version restores most of those cuts, particularly those affecting people with disabilities.

Contact your State Representative to let them know how you feel about the Senate version of the budget.
