Managed Long Term Supports and Services (MLTSS):

The MLTSS Advisory Group met with OAAS on August 26th. OAAS gave an update on their projected timeline, a status on their progress, and noted group suggestions that have been incorporated into the MLTSS design. The RFP is expected to be released early in 2015. The next meeting will be held on December 11th and will focus on transition plans, the ombudsman contract, and have breakout groups for further design discussions with OCDD.

OAAS recently met with stakeholders to discuss aspects of the HCBS Settings Requirements that CMS released earlier this year. According to OAAS' analysis of its settings, these requirements will primarily focus on Adult Day Health Care centers serving participants in our 1915(c) waiver programs. We have created a draft transition plan detailing the actions that we plan take to ensure compliance with these requirements. We invite you to review our transition plan and offer comments and suggestions. The transition plan may be found on the OAAS website, "OAAS Home and Community-Based Services Settings Transition Plan".
