

Information Alert: Rep. Nancy Landry will not move HB 642

Representative Nancy Landry issued a press release promising NOT to move on HB642 (legislation that would have created the Special Education Scholarship Program).

Thank you to all LaTEACH members who contacted Representative Landry and expressed their views on the issue of separate scholarship schools for students with disabilities.

Representative Landry listened and heard your message.

LaTEACH is grateful and appreciative of the time and consideration Representative Landry took in attempting to fix issues with the existing scholarship program and continuing to listen to concerns parents of students with disabilities have with educational issues. Parents of children with disabilities were clear that creating a separate program was not the choice they want.

Below is the press release Rep. Landry issued today.

**In an effort to track our impact, please respond to this email and let us know you contacted Rep. Landry on this issue.**

**Response to concerns from parents**

**“Committed to finding the right solution...”**

“I am committed to finding the right solution within education reform to allow all parents, including those of students with learning disabilities, to choose the best school for their children.

I want to thank the passionate and concerned parents who have contacted me concerning HB 642.

My conversations with those parents have led me to the decision not to move HB 642. I will look for a more effective means within education reform to give all parents the choice they deserve to provide the best education possible for their children.”
