

Equitably Fund Florida Parishes Human Services Authority

KNOW THE FACTS

- **There are 10 Human Services Districts/ Authorities created legislatively throughout the state.**
- **Some districts/ authorities receive nearly double the state funding per capita than Florida Parishes Human Services Authority (FPHSA).**
 - **Per capita state general funding ranges from \$13.38 to \$38.11, with FPHSA at \$19.37.**

What Can Legislators Do?

Appropriate an additional \$1.5 million in State General Funds (SGF) to Florida Parishes Human Services Authority (FPHSA) to bring its SGF per capita to \$22 for FY19.

Why Do This?

The Human Services Districts/Authorities provide vital community supports and services for people with developmental disabilities and behavioral health needs. These services help keep people at home and out of more costly institutional settings.

However, not all individuals/families have equal access to these supports because the inequitable funding of the districts/authorities has created the “haves” and “have nots” depending on where a person lives.

Increasing budget parity among the districts/ authorities will provide individuals with developmental disabilities and their families in the Florida Parishes with levels of supports and services available in other regions of the state.
