Elimination of LaHIPP Delayed until December 1st

The Department of Health and Hospitals (DHH) announced today it was delaying the discontinuation of the Louisiana Health Insurance Premium Payment (LaHIPP) Program until December 1, 2015 to give families more time to make arrangements for the change. The state will continue to pay the applicable portion of the recipient's private insurance until December 1st. DHH is sending letters to the approximately 1,500 households with additional details.

Read DHH's [press release](#) for more information.
