COMING SOON: New Email Provider for Council Newsletter

The Council is changing to a new email provider for its electronic newsletter. To continue receiving LaDDC News articles without interruption, please add info@laddc.org to the Safe Senders list in your email account. To do this in Outlook, right click on an email then select **Junk** and then **Junk Email Options**. Select the **Safe Senders** tab at the top then click **Add** and enter the email address (info@laddc.org) or domain name (@laddc.org) in the box. Click **OK**, **Apply**, and then **OK** again to add it to your Safe Senders list. If the LaDDC News goes to your Junk Mail folder then right click on the email, select **Junk** then click **Never Block Sender**. For other email programs (i.e., Gmail, Hotmail, Yahoo, etc.), simply adding info@laddc.org to your contacts list should do this.

Let us know if you need future LaDDC News articles to go to a different email address. Contact Robbie Gray at robbie.gray@la.gov or 225-342-6804 (toll free at 800-450-8108) with questions or to update your contact information.
