## Council Launches New Website

The Council is excited to announce the launch of our new website ([www.laddc.org](http://www.laddc.org)), designed with a fresh new look and user-friendly navigation, updated with the latest Council news and information about Council initiatives and events. It has been our goal to create a resource that is not only informative, but also inviting and engaging.

The new site is organized around the Council's areas of emphasis and includes news, resources, and the Council's positions and initiatives in each area. It is also arranged in the areas of public policy and advocacy, capacity building and systems change.

The site now includes full information on the Council's two grassroots advocacy networks, LaCAN and LaTEACH, rather than maintaining separate sites for these groups, and boasts a host of new features to show you how you can get involved in these networks and other Council activities.

Although we will continue to add more information to the website and consider it a "work in progress," we encourage you to spend some time navigating the site and hope you find it both informative and helpful.
