Self-Direction Expands: Accepting Additional NOW Recipients

Do you receive services through the New Opportunities Waiver (NOW)? Would you like to have more control over the services you receive, the people who provide those services, and how much you pay them? Are you willing to accept more responsibility for your services? If the answer to these questions is yes, then Self-Direction may be for you.

The Department of Health and Hospitals (DHH) has opened up additional opportunities for NOW recipients to enroll in Self-Direction. Interested persons should contact their support coordinator to begin the process.

For more information and to find out if Self-Direction may be for you, see our [fact sheet](#) on Self-Direction.
