

Share Your Input on Transportation

October 3, 2017

The lack of transportation is a huge issue for many Louisiana citizens, but especially for those with disabilities. The Governor's Advisory Council on Disability Affairs (GACDA) is conducting a survey of individuals with disabilities and their family members to learn about their needs for transportation and the availability of transportation in the area where they live. Responses to the survey will be used to make recommendations to both the governor and the legislature.

Please consider completing the anonymous survey and sharing it with others so GACDA can gain as much information as possible about the transportation needs of those with disabilities in our state. The survey can be completed at the following link: <https://www.surveymonkey.com/r/23P3SJX>
