K-12 Initiatives Area Update

Louisiana Autism Spectrum and Related Disorders Project (LASARD) Julie Riley, Coordinator

LASARD has conducted 39 technical assistance (TA) visits during August. Four LEA district meetings, six LEA professional learning and development (PLDs) and three webinars were conducted. Ten partner LEA district teams are receiving coaching according to individual implementation plans. Webinars in September and October will focus on social interaction.

Louisiana Deaf-Blind Project (LA D-BP) – Michael Norman

LA D-BP ends 9/30/18. A final report for the five year grant has been issued. The project has written and submitted a proposal to compete for 2018-23 funding (five years).

Connections 2018 Conference was held at HDC Friday-Saturday (14/15) with more than 200 participants.

Louisiana School Psychology Internship Consortium (LAS*PIC)

Six interns began their internship year on July 1. Interns work Tuesday through Friday each week in their school placements as certified school psychologists. Interns complete three rotations during the year in addition to working in schools. The Fall Rotation is Media Development. Interns are developing professional learning & development (PLDs) presentations in three formats: (a) professional presentation at professional association, (b) webinar, and (c) Online Learning Module (Articulate). These tasks will be completed by December 1.

A meeting was held on 9/20 with LAS*PIC alumni and interested people to discuss the future of LAS*PIC for 2019-20 and beyond. If LAS*PIC is to recruit interns for the 2019-20 school year, efforts should begin 10/1. Also, LAS*PIC's APA accreditation is up for renewal in 2019. An extensive self-study will need to be written and submitted to APA followed by an in-site accreditation team on-site visit in the Fall of 2019. The group recommended, that given no

financial support for LAS*PIC, no intern applicants be recruited for 2019-2020. The group will meet again to consider efforts to complete a self-study and apply for accreditation renewal.

Louisiana Advisory Council on Student Behavior and Discipline (ASCBD)

The Louisiana legislature created an advisory council to inform the legislature on student discipline and the concerns about violence in schools, too many students excluded, and the school-to-prison pipeline. Annual reports are required with recommendations. ASCBD is in its second year with 21 council members (including Alan Coulter this year) and is targeting how to reduce out-of-school suspensions and a new school discipline law.

ACSBD Legislative Committee – is meeting bi-monthly to draft a bill and seek a legislative sponsor for the 2019 legislative session. This is highly charged setting with a number of entities advocating for their constituency. Senator Bishop is a strong advocate and is monitoring the committee's activities.

ACSBD Data Committee – Data on student behavior and implementation of PBIS is generally regarded to be problematic in gaining a better understanding of what is happening in schools. The committee is meeting monthly to determine what changes are needed in data collection to gain a better understanding of what is actually occurring in schools that would illuminate student behavior and the effectiveness of behavioral interventions.

Louisiana Legislative Task Force on Bullying Awareness and Prevention

The task Force is meeting later this month for the first time in 2018. HDC will press for increased support from legislature to schools to reduce bullying of students with disabilities.

Institution for Higher Education Consultant for Special Education Improvement

HDC has one of three appointed consultants to the LA Department of Education on improvement efforts by the Louisiana Department of Education (LA DoE) efforts to improve performance including the the state special education improvement grant (SPDIG). September's task was to provide comments on the current version of the *Diverse Learners Guidebook*.

Transition, Employment & Community (TEC) IA Update

Employment/Transition
