Update/Progress on Agency Initiatives

Permanent Supportive Housing Services

 The Office of Aging and Adult Services (OAAS), Office for Citizens with Developmental Disabilities (OCDD) and Office of Behavioral Health (OBH) continue to assist participants to transition into Permanent Supportive Housing. There are currently 4,670 individuals being served and 2,717 households providing Permanent Supportive Housing. A total of 6,968 individuals have been served since the beginning of the program.

Money Follows the Person

- Since the fall of 2009 through year-to-date (as of 6/4/19), approximately 2,957 individuals have transitioned through the Money Follows the Person (MFP) program in OAAS and OCDD from qualified institutions (hospitals, nursing facilities, and supports and services centers), with 411 individuals having transitioned in CY 2018. MFP continues to break barriers and exceed existing benchmarks.
- On January 25, 2019, the Medicaid Extenders Act of 2019, a bill that includes short-term funding for the Money Follows the Person program, became law. Participants can now transition through MFP through CY 2019, which was extended from December 31, 2018. On February 28, 2019, Congress introduced two reauthorization bills, H.R.1342 and S.548, through the Empower Care Act to extend the MFP program for five additional years. They are still pending Congressional action.

Self-Direction

• There are currently 1,315 individuals participating in the self-direction option as of 5/31/2019.

- LDH has formed a Self-Direction Stakeholder group; meetings were held on July 10th, September 11th, and November 13th in 2018, and on February 14th and June 24th in 2019 to date.
- LDH released a Request for Proposals (RFP) for the Fiscal/Employer Agent services on April 2, 2019. The evaluation and scoring process of proposals received was completed at the end of May. The contract award will be announced mid-June 2019.

Electronic Visit Verification

- LDH and its contractor SRI have trained and worked with providers statewide to implement in-home electronic visit verification (EVV) to ensure Louisiana complies with requirements listed in the Cures Act. LDH required providers to implement EVV for inhome personal care services (PCS) by 2/19/18.
- All providers are reporting services through electronic visit verification to some extent; however, work has now shifted to focus on minimizing manual entry of services. LDH issued a memo to providers on 3/20/19 detailing how compliance (specifically the degree of usage) will be monitored going forward and the expectations around proper use of EVV.

Support Coordination/Case Management for Waivers

 Effective 4/1/19, support coordination agencies serving waiver participants began using EVV to report all required monthly contacts.

Self-Direction

 The Fiscal/Employer Agent (FEA) issued training materials and began hosting one-on-one and group training events in late 2018 in preparation for the transition to EVV. LDH required self-direction employers and employees to use EVV to report services effective 4/1/19. Currently, more than 90% of all self-direction employers and employees are utilizing EVV. LDH and Acumen are continuing to reach out to those who have not yet adopted EVV to offer additional technical assistance and training.

EPSDT Personal Care Services

- EPSDT PCS providers will be the final population to implement EVV ahead of the 1/1/20 federal deadline for PCS. Both fee-for-service and managed care providers will be required to use EVV to report services and LDH is planning to implement by 10/1/19.
- Long-Term Supports and Services Incident Management System
 - LDH procured a contract through the competitive bid process to replace the outdated, isolated and unsupported incident management system (OTIS) with a

system that allows OAAS, OCDD, Health Standards Section (HSS), direct service providers, support coordinators, nursing homes, and workers of intermediate care facilities for individuals with intellectual disabilities (ICF/IID) to use a single incident management system. The new system allows for a consolidated, consistent reporting and analytics mechanism in addition to real-time data sharing among agencies. This was aimed at improving response times, programmatic assessment, strategic planning and compliance with Centers for Medicare and Medicaid Services' (CMS) assurances while aiding in resolving incidents more efficiently to prevent further similar incidents.

• The implementation phase schedule of the new system is detailed in the table below:

Phase	Implementation Date	Group	LDH Region	
1	April 15, 2019	Adult Protective Services (APS) Villa and Pinecrest	Statewide
