- [Letter to Gov. Edwards – LDH Secretary Selection – February 11, 2020](#)
- [Letter to BESE – LDOE Selection of Superintendent – February 11, 2020](#)

- Requested LDH share data and address impact of COVID-19 on people with developmental disabilities as indicated by data. LDH/OCDD began publishing weekly status reports with data on people with developmental disabilities impacted by COVID-19: <http://ldh.la.gov/index.cfm/page/3959>.
- Requested LDH address guidance related to rationing of medical equipment or services to ensure the decision will not discriminate against people with developmental disabilities. Previously, guidance on the LDH website included a document from Washington state with criteria of base cognitive functioning as a condition to consider for not providing care during a time of resource shortages. LDH removed the guidance from Washington state and issued two clarifying

memos. One [memo](#) reflected the value of people with developmental disabilities and another [memo](#) highlighted the right of people to have accommodations and prohibiting discrimination on the basis of disability.

- [Webinars hosted by FHF Centers posted on LaDDC webpage](#)
- Tracked exceptions to waiver services (Appendix K waivers) by state:
