Louisiana Developmental Disability Council Report

Update/Progress on Agency Initiatives

American Rescue Plan Act of 2021

On March 11, 2021, President Biden signed the American Rescue Plan (ARP) Act of 2021 that provides states with a temporary 10 percentage point increase to the federal medical assistance percentage (FMAP) for certain Medicaid expenditures for home and community-based services (HCBS). This funding increase is limited to expenditures that occur during a single year, April 1, 2021 to March 31, 2022. The ARP requires States to use the enhanced FMAP to implement or supplement activities to enhance, expand, or strengthen HCBS under the state's Medicaid program by March 31, 2024. In other words, the funds can be spent through March 31, 2024, once received. **The funds cannot be used to supplant existing state funds or services already existing or expended for Medicaid HCBS.** In order to receive the funds, the state must attest that it is not imposing stricter eligibility standards, methodologies or procedures for HCBS as of April 1, 2021; the state is preserving covered HCBS including the services themselves and the amount, duration and scope in place as of April 1, 2021; and the state is maintaining provider payment rates at a rate no less than that paid on April 1, 2021. Medicaid worked with OCDD, OAAS, and the Office of Behavioral Health (OBH) to develop the initial spending proposal that will be submitted to CMS for approval due by July 12, 2021. The Department will continue to work with stakeholders on use of the funds and ongoing service and expenditure requests for implementation.

Act 421 – Children's Medicaid Option Update

Act 421 of the 2019 Legislative Session mandates that the Department implement a Tax Equity & Fiscal Responsibility Act (TEFRA) option under the Medicaid program. Briefly, TEFRA allows Medicaid to disregard parental income for children with disabilities who meet institutional level-of-care requirements, thus allowing the child with disabilities to receive Medicaid coverage. Act 421 requires submission of necessary documents to the federal Centers for Medicare and Medicaid Services (CMS). LDH submitted the waiver application on September 1, 2020.

After consideration of numerous models, consultation with the legislative authors and stakeholder outreach, given the current appropriation for the program, LDH has determined that Act 421 is best implemented as an 1115 demonstration waiver, managed jointly by Medicaid and OCDD within LDH.

For FY 22, LDH annualized the \$13.6 million funded in the FY 2021 Executive Budget for a total annual budget of \$27.2 million. LDH was hoping to kick off registration in of April 2021; however, the timeline has been delayed as the application is still under review with CMS. Due to the delayed CMS approval of this demonstration waiver, LDH is working aggressively with CMS in hopes of obtaining approval as soon as possible. We continue the work on systems, policies, and procedures necessary to begin enrollment in the program once CMS approval is received. LDH has worked through implementation requirements and stands ready to go live upon federal approval. However, given the recent announcement of possible enhanced funding under the American Rescue Plan, LDH is exploring expansion of this program either through unlimited enrollment in the demonstration or through a State Plan Amendment option. Additional updates and details will be provided upon further discussions with CMS regarding the funding.

All information and updates on the implementation of the program are posted to our Act 421 website here: www.ldh.la.gov/Act421.

Permanent Supportive Housing Services

The Office of Aging and Adult Services (OAAS), OCDD and OBH continue to assist participants to transition into Permanent Supportive Housing. There are currently 4,767 individuals being served and 2,836 households providing Permanent Supportive Housing. A total of 7,966 individuals have been served since the beginning of the program.

Money Follows the Person

Since the fall of 2009, through year-to-date (as of July 2021), approximately 3,415 individuals have transitioned through the Money Follows the Person (MFP) program in OAAS and OCDD from qualified institutions (hospitals, nursing facilities, and supports and services centers), with 412 individuals having transitioned in CY 2018, 275 individuals transitioned in CY 2019 and 203 in CY 2020. So far 99 individuals have transitioned in CY 2021. Although the COVID-19 public health emergency and limited staff has continued to present its challenges, MFP continued to break barriers. Of the states still participating, Louisiana remained one of the top 5 states for transitions and among those with the highest cumulative transitions to date since the inception of the program.

On September 23, 2020, CMS announced a supplemental funding opportunity available to the MFP demonstration states that are still currently operating MFP funded transition programs. Under this supplemental funding opportunity, up to \$5 million in MFP grant funds is being made available to each eligible state for planning and capacity building activities to accelerate LTSS system transformation design and implementation and to expand HCBS capacity. Eligible states can submit supplemental budget requests under this funding opportunity through June 30, 2021. Consistent with all MFP grant awards, funds will be available for the federal fiscal year in which it was awarded and four additional fiscal years. Proposals for this initiative were submitted on 6/25/21 and is pending approval.

Over the past several years, Congress continues to introduce bills that would provide longer reauthorization of the MFP program. So far Congress has passed six short-term extensions of MFP since funding expired in 2018. Short-term MFP extensions combined with the impact of COVID 19, has

caused many states to significantly decrease the number of transitions or have had to completely shut down their MFP programs. In March of 2020, Congress passed the CARES act which again extended MFP and Families First Coronavirus Response Act (FFCRA), which provides an additional 6.2% increase to each qualifying state's FMAP. In December 2020, Congress passed the [Consolidated Appropriations Act](#), which extended funding for the program an additional three years. The Bill also changed the qualifying institutional length of stay from 90 to 60 days. Currently, MFP reauthorization bills are under review in Congress and on March 12, 2021 representatives reintroduced a bill to make the Medicaid Money Follows the Person (MFP) Program permanent ([H.R.1880](#)). For now, CMS continues to approve MFP budgets in yearly increments. The current MFP Budget for CY21 was approved on 6/3/21.

Self-Direction

- There are 1738 individuals participating in the self-direction option as of 5/31/21.
- All participants new to Self-Direction are given the 'Freedom of Choice' to select either Acumen Fiscal Agent or Morning Sun.
- Self-Direction participants may change fiscal employer agencies for dates of service at the beginning of the calendar quarter.
- As of May 31, 2021, Morning Sun provided fiscal services to 110 Participants/Employers (OAAS/OCDD).
- A small stakeholder meeting was held on June 4, 2021. We are in the process of scheduling the statewide stakeholder meeting which is expected to occur in September 2021.

Electronic Visit Verification

LDH and its contractor SRI continues to train and work with providers statewide to for in-home electronic visit verification (EVV) to ensure Louisiana complies with requirements listed in the Cures Act. Ongoing technical assistance is provided as needed. All providers are reporting services through electronic visit verification. LDH issued an updated memo to providers on 2/24/21 detailing how compliance (specifically the degree of usage) will be monitored going forward and the expectations around proper use of EVV. At this time approximately 93% of providers are meeting the state benchmark of 80% EVV input.

Self-Direction

The state began requiring self-direction employers/employees to begin electronically entering time effective 1/1/2019. The state's fiscal employer agent contractor hosts an EVV module where employers/employees could utilize two options for reporting services/entering time: 1) a web-based portal requiring dual verification by both employer and employee and 2) a mobile app which records clock-in/out times and GPS. CMS released guidance in August of 2019 stating that option #1 (e.g. web-based portal using dual verification) is not permissible under the Cures Act. Currently, 86% of self-direction employers/employees report services utilizing this mechanism. In addition to the

mobile app solution the state has identified alternative Cures compliant solutions 1) Telephony – clock in and clock out is done in real time and the number used needs to be the phone number on file with the participant 2) FOB Device – a fixed device that generates new codes at the press a button used to clock in and clock out. LDH has discussed the alternative solutions with stakeholders and received feedback in order to successfully transition from the use of the web-based portal option. In January 2021, all SD employers were notified that the acceptable EVV options are: mobile app for clock in/clock out, telephony using the participant’s land line, and the FOB Device. We will be monitoring compliance in the second and third quarter of 2021.

EPSDT Personal Care Services (PCS)

EPSDT PCS providers are in the process of implementing EVV. Both fee-for-service and managed care providers are required to use EVV to report services as of October 1, 2020. Initially, compliance monitoring will review to ensure EPSDT provider are using the LaSRS EVV system. As with waiver in-home providers, the state will then phase in compliance percentages. We are currently working to implement a post authorization process which will require the use of EVV and LaSRS for EPSDT services.

Behavioral Health

The Statewide Coordinated System of Care (CSoC) waiver enrollment totaled 2,247 as of 7/21/2021.

*This data includes all children presumptively eligible and enrolled in 1915 b(3)/(c) waivers.
