Updates on Accessible Voting in Louisiana

The [Voting Systems Commission](#) held its final meeting on June 29th, 2022. The final recommendations were:

- Both hand-marked ballots and ballots marked with a Ballot Marking Device (BMD)
- No pre-printed ballots
- Either or both full and summary ballots.
- All ballots will be scanned for Election Day voting, and counted for official vote.

It is important to keep in mind that these are only recommendations to the Secretary of State; they are not the final decisions. The Secretary of State will now start the RFP process for Louisiana's new voting machines, which will approximately take another year.

With the passage of [HCR14 of the 2022 Regular Legislative Session](#), a new task force pertaining to voting rights for people with disabilities will be formed. The task force shall be comprised of 13 people, of which at least 7 will be people with disabilities to be appointed by the [Governor's Office of Disability Affairs](#), [Disability Rights Louisiana](#), [Split Second Foundation](#), the [Louisiana Developmental Disabilities Council](#) and the [Arc of Louisiana](#).
