Program Name: **Long Term Care Ombudsman**

Long Term Care Ombudsman program is a federal and state funded program mandated to advocate on behalf of residents of long-term care facilities and to ensure that the rights of the residents of the long-term care facilities are being maintained. Ombudsman and Ombudsman volunteers make monthly visits to long-term care facilities across the state.

Did you know? Louisiana has 269 nursing homes and 152 assisted living facilities accommodating approximately 44,000 residents.

There are 26 staff and volunteer ombudsman in the Long-Term Care Ombudsman Program.

What to Watch for in 2024:

- A first-of-its-kind federal law aiming to fix widespread understaffing in nursing homes with mandatory minimum staffing levels is expected to take effect in 2024. The plan mandates each nursing home to provide residents with a minimum of 0.55 hours of care from a registered nurse and 2.45 hours from a nurse aid daily.
- Approximately 75% of nursing homes need to enhance staffing to meet the proposed minimums. The regulations aim to improve resident safety and care quality, aligning with President Biden's broader plan to address long-standing issues in nursing homes, particularly highlighted by the challenges during the COVID-19 pandemic.
- Critics argue that staffing shortages make the new standards unattainable, while some resident advocates believe the proposal falls short of implementing the president's directives.
