Recent News

It’s hurricane season, and it is important for all citizens to have a plan in case of a disaster. This plan should be specific to the needs of each individual, particularly those with specific medical needs or disabilities. You can read more about this on the Governor’s Office of Homeland Security and Emergency Preparedness (“GOHSEP”) planning website: <https://getagameplan.org/>

GOEA continues to work with the Emergency Management for Disabled and Aged Coalition (“EMDAC”), Feeding Task Force and other Response/Recovery Support Function groups. These activities are structured to plan and implement activities prior to an emergency, during the emergency, and post emergency for expedient recovery for the constituents and the state.
